

**Your baby  
is our only  
goal**

**Science  
is how we  
achieve it**

**Westmead Fertility Centre**

---

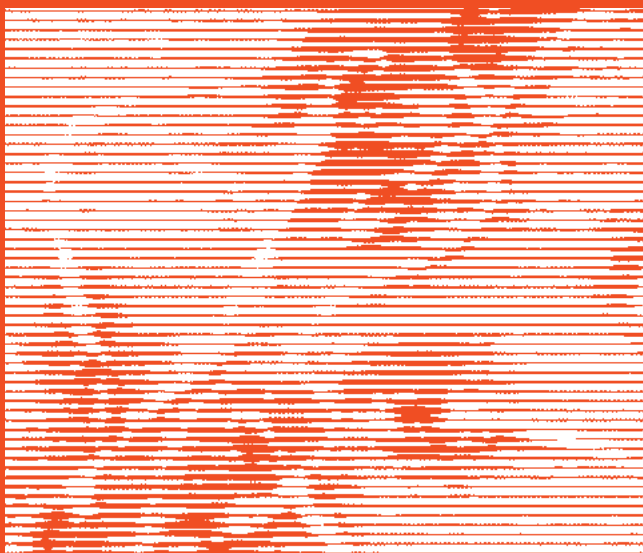

**THE UNIVERSITY OF SYDNEY**

At Westmead Fertility Centre we believe everyone should have access to high quality fertility care at an affordable price

Since 1984, we have assisted with the birth of thousands of healthy babies, helping couples and individuals just like you to realise their dream of becoming parents.

When you embark on your fertility journey, you'll quickly become aware that there are a number of fertility clinics from which you can choose, each with very different scientific and clinical capabilities, experience levels, and models of care.

## The Westmead Fertility Centre difference

---

### **We make high quality fertility treatment affordable**

We make fertility treatment affordable and accessible to everyone, including you.

We are able to offer affordable pricing as we are owned by The University of Sydney, rather than profit driven shareholders. We operate as a social enterprise. In January 2020, we started working with the NSW Government to make treatment even more affordable and accessible. At our clinic, an IVF cycle costs only \$1,000 for Medicare eligible NSW residents. This fee includes all cycle fees, access to theatre, embryo freezing and storage for 3 months. For more information visit:

[www.health.nsw.gov.au/affordable-ivf](http://www.health.nsw.gov.au/affordable-ivf)

### **We deliver leading science to give you a strong chance of success**

We have a proven record of strong success rates for more than 30 years. We are very proud of our strong track record, but we won't rest there. We are constantly searching for breakthroughs and innovations to assist more people realise their dream of becoming a parent. For more detailed information on our high success rates and a comparison to those of other clinics visit:

[www.YourIVFSuccess.com.au](http://www.YourIVFSuccess.com.au)

### **We have an experienced and caring team of experts**

Care is the quality of personalised treatment we provide, the knowledge we share, the time we invest, the trust we build, the control we give back to our patients. In what can be an overwhelming process, you will receive the highest standard of understanding, respect and support from our team who will guide you every step of the way.

Westmead Fertility Centre has the proven track record that you are looking for.

## Why choose Westmead Fertility Centre?

---

Westmead Fertility Centre is wholly owned by the University of Sydney, which makes us very different from any other fertility clinic in Australia. We operate as a social enterprise with a commitment to use any 'profits for purpose' to reinvest into our clinic and fertility research. This means we are uniquely placed to offer high quality, personalised treatment in a caring environment - all at an affordable price. Our team has some of the highest qualifications in the country and our work is driven by the latest developments in fertility technologies and methodologies to give you a strong chance of success.

Thank you for your interest in Westmead Fertility Centre. We look forward to meeting you.

## Getting the expert help you need

---

Your personalised fertility journey starts with an investigation of both partners' health by a Westmead Fertility Centre fertility specialist. We take a holistic (whole of body) approach, which includes assessing the influence of physical and lifestyle factors on your fertility.

A consultation with a Westmead Fertility Centre fertility specialist does not necessarily mean you will need fertility treatment. Many couples require only minimal intervention to achieve a pregnancy, while others need to undergo fertility treatment.

## Fertility treatment options

---

Westmead Fertility Centre offers a comprehensive range of fertility treatment options, if you need them, including:

- in vitro fertilisation (IVF)
- intra-cytoplasmic sperm injection (ICSI)
- frozen embryo transfer (FET)
- intrauterine insemination (IUI)
- ovulation induction (OI)
- ovulation tracking (OT)

For more information visit:

treatment-and-fertility-preservation-options](http://www.westmeadfertilitycentre.com.au/treatment-and-fertility-preservation-options)

## When to seek expert advice

---

As a general rule, you should talk to a fertility specialist if:

- you are younger than 35 years of age and have been trying to conceive for 12 months or more
- you are 35 years of age or older and have been trying to conceive for six months or more

Experience tells us that the longer you wait to seek help, the more it can adversely affect your chance of conceiving.

## Your options

---

Make an appointment with a Westmead Fertility Centre fertility specialist by going to:

[www.westmeadfertilitycentre.com.au/meet-our-experts](http://www.westmeadfertilitycentre.com.au/meet-our-experts)

You will need to obtain a GP referral before attending the appointment.

---

Attend a Free Fertility Information Seminar to meet our team of experts and find out more by going to:

[www.westmeadfertilitycentre.com.au/latest-research-and-resources](http://www.westmeadfertilitycentre.com.au/latest-research-and-resources)

---

Have a Free Chat with an expert Fertility Nurse by going to:

[www.westmeadfertilitycentre.com.au/ask-a-fertility-nurse-a-question](http://www.westmeadfertilitycentre.com.au/ask-a-fertility-nurse-a-question)

---

## We are here to support you, every step of the way

---

It's important to know you are not alone in seeking fertility treatment. Difficulty conceiving is much more common than people generally think – roughly one child in every classroom is there with the help of fertility treatment.
